EDANA: Training Courses on Nonwovens and Absorbent Hygiene Products in Kuala Lumpur 11-15 December 2006

We are pleased to announce the TTNA's cooperation with EDANA (the European Disposables and Nonwovens Association) in organizing, for the first time in Malaysia, EDANA's two highly acclaimed courses - **Nonwovens Training Course** and **Absorbent Hygiene Products Training Course** - from 11 to 15 December 2006.

Every year EDANA trains over 200 professionals in the industry.

These training courses are designed to provide participants with a good understanding of the various technologies, processes, raw materials and market aspects of nonwovens and absorbent hygiene products.

Because of Asia's emerging nonwovens industry, these training courses provide a unique opportunity for both newcomers and established industry personnel in the region to meet with the industry and understand future thinking.

Attached are full details and registration form.

As each course will be limited to 30 delegates, please send completed registration form as soon as possible direct to Veronique at the EDANA office on Veronique.verboekhoven@edana.org.

Should you have any questions please feel free to contact Veronique on Veronique.verboekhoven@edana.org, or Lorraine Gierck on lorraine@tna.com.au.
